Deskripsi Program

Project ini adalah aplikasi Flutter bernama "Daftar Komik" untuk mengelola data komik, dengan kode yang dipisah menjadi tiga file: main.dart (daftar komik), comic_detail_page.dart (detail), dan comic_edit_page.dart (edit). Pengguna bisa menambah komik lewat FloatingActionButton yang membuka dialog, melihat detail dengan tap, mengubah data dengan tekan lama, dan menghapus dengan tap dua kali yang diikuti Snackbar. Data disimpan sementara di memori dan berpindah antar halaman lewat Navigator, sehingga kembali ke kondisi awal setiap aplikasi dijalankan ulang.
